THE RALEIGH NEWS

VOL. XIV--NO. 17. RALEIGH, N. C., FRIDAY MORNING, SEPTEMBER 20, 1878. $5.00 PER ANNUM

The probability that the South will wrest entirely from New England the manufacturing of her own great staple is somewhat distant, perhaps, but it is gratifying to know that satisfactory steps are being made in that direction. For instance, we see it stated that in Columbus, Ga., are mills employing many hundreds of operatives who will, this year, weave into cloth from 15,000 to 20,000 bales of cotton. In 1865 there was not a mill in the city.

The Patent Office affords an interesting illustration of the growth of invention at the South, which suggests possibilities of the further increase of industrial activity. In South Carolina, for instance, where in 1871 one patent was granted for every 27,139 inhabitants, in 1877 there was one for every 20,753; in Alabama, where in 1871 there was one for every 34,400, last year there was one for 23,418. In Connecticut, on the contrary, the proportion has not been kept up during the past six years, for while in 1871 there was one patent for every 806 people, in 1877 there was one to 885. These figures, while showing the South far behind the Yankees in inventiveness, indicate a considerable awakening of the dormant faculty here, which carries promise with it.

In many of the large districts and cities of the Northern States, a man has no chance of election to office unless he disburses money extravagantly. It is not an assumed necessity of entering public life, however, to the extent which it has come to be in England, where the members of the Commons not only serve without pay, but defray election expenses which would dampen the most ardent ambition in this country. We hear of a Pennsylvania man who spent $13,000 to get a nomination for Congress (and did not get it), but a recently defeated candidate for Parliament in England spent over £8,000, or $40,000. His bill for "conveyances and railway passes" was £3,126, his "agency" cost him £2,114, besides £1,443 for "canvassers and messengers." A recent Scotch contest involved the rival candidates in the necessity of maintaining a fleet of steamers and cost them both together £20,000. If some of this money had accrued to the mass of the people instead of in the hands of an hereditary and monied aristocracy, the people would have had more independence, they would have been capable of making an intelligent and unbought choice, and representation would be a honor instead of a disgrace.

THE YELLOW DEATH.

Some Rays of Light--The Fever Strikes Mobile--It Still Prevails in the Country.

By Telegraph to the News.

LYNCHBURG, Va., Sept. 19.—Dr. Greene, of Georgia, in the Cincinnati Medical News, endorses and recommends Bedford, Virginia Springs, alum and iron moss, for yellow fever. Supplies have been ordered to all the afflicted districts.

BATON ROUGE, Sept. 19—Ex. Gov. Sam. Bard died last night of yellow fever. Though his family was absent, he received every attention, and constantly urged that they be not informed of his illness, hoping he would recover.

MEMPHIS, Sept. 19—Since yesterday noon 57 deaths are reported and among the new cases are Dr. T. H. Force, of Hot Springs, Arkansas, Dr. L. Upps, of Los Angelos, Cal., and Geo. D. Landrum, youngest son of Rev. S Landrum. Dr. Hiram, Pierce, of Cincinnati, died last evening. Chief of Police Athey is convalescing and yesterday made his first appearance. Luke E. W. Wright, who was convalescing, took a relapse.

NEW YORK, Sept. 19.—The Southern Relief Committee of the Chamber of Commerce will send twenty-five hundred dollars to the Peabody Association at New Orleans; twenty-five hundred to the Howard Association at Memphis, and twenty-five hundred to the Memphis Citizens' Relief Association. This makes the amount distributed to date one hundred thousand. Subscriptions this morning amount to twelve hundred and twenty-eight dollars. Up to last evening $111,015 were received by the Committee, who now have less than fifteen thousand dollars for distribution. The Mayor to-day sent the Howard Association of Vicksburg $418.

MOBILE, Sept. 19.—The Board of Health reports officially this morning two more cases of yellow fever on the 17th, both terminating fatally. These cases occurred in the same location of the city as those previously reported.

CANTON, MISS., Sept. 19.—The fever is abating.

NEW ORLEANS, Sept. 19.—Deaths 55; cases reported 195. Prior to the 16th instant, one hundred and thirty-four.

BATON ROUGE, Sept. 19.—Deaths 3; new cases 314.

NEW ORLEANS, Sept. 19.—A letter from Pattersonville says that at Lagouda plantation 29 cases of fever and 8 deaths have occurred. The proprietors, Clarke & Steele, are dangerously ill. Sister Dorcha, of the St. Vincent Orphan Asylum, is dead. Sister Estelle is very low. The death list includes fourteen children under 7 years of age. The Picayune reports the death of Henry Loeb, a prominent merchant, and Carl Hosco, the prestidigitateur. Superintendent Robinson, of the New Orleans and Mobile Railroad, having arranged with the Mobile and Jackson county authorities, all mails will pass through as heretofore.

Queen of the Gipsies.

Matilda Stanley, the recognized Queen of the Gypsies of the United States, was buried yesterday at Cincinnati. Fully 25,000 persons, including the representative Gypsies from this country and Canada, were present. The Queen was a woman of great influence with her race, and when she died some months ago at Vicksburg, Miss., her body was embalmed and preserved for final burial. The ceremony was conducted by a minister of the Church of the United Brethren, and was not different from a Christian burial. The King, the husband of the dead Queen, and her children were present. These latter live near Dayton, Ohio, which place is the headquarters of the Gypsies in this country.

Capitol Cleanings.

By Telegraph to the News.

WASHINGTON, Sept. 19.—The Chinese Embassy arrived this afternoon. They will be presented to the President upon his return, after which the chief Ambassador, with a portion of his suite, will visit Spain and Peru, to organize Chinese diplomatic services in those countries.

In considering the question of payment to Captain Eads for work on the Mississippi jetties, the Attorney General decides that where material has been delivered and is under control, the United States payments can be made to Eads as if the material had actually been used in the work.

The cadets at West Point Military Academy have contributed $500 for the yellow fever sufferers.

The Signal Service at Philadelphia reports the arrival at Delaware breakwater of the bark Frugoni, with 153 officers and crew of the Spanish frigate Pizzaro, which foundered at sea. The crew was taken off September 11th.

The Noble Red Men.

By Telegraph to the News.

LEAVENSWORTH, KANSAS, Sept. 19.—A special to the Times, from Dodge City, Kansas, says: "Fifteen cattlemen and Company I, 4th cavalry, fought a band of Indians yesterday, 35 miles south of Dodge City. One or two Indians were killed and one soldier wounded. The military fell back. The Indians went on to the northwest. The Indians have killed several herders and stolen a great many horses within the last few days.

McMahon's Resignation.

By Cable to the News.

PARIS, Sept. 19.—Gambetta, in his speech at Rouen, Wednesday, said that the resignation of President McMahon would involve no danger to the Republic. His successor would be immediately nominated, and there would be no competition for the position. But, said he, the President will not resign; he ought not, and he can not.

Will be Paid.

By Telegraph to the News.

WASHINGTON, D. C., Sept. 19.—A rumor that a third installment of the Mexican award, due January 31st, will not be paid by our government, is denied upon competent authority; and it is declared upon the same authority that most of the money to meet it is already on deposit in New York.

Murder Most Foul.

Brooklyn Eagle.

The body of a woman was found in a barrel in the woods near Silver Lake, Staten Island, Monday, by some boys who were taking a stroll. The spot where it was found is at the foot of a hill, and one of the boys in climbing up the ravine trod upon a barrel stave, which broke beneath him. Curiosity led him to look further and he discovered a barrel under the ground, containing some large object wrapped in paper. On tearing away the carpet the leg of a human being obtruded. They summoned two men and Coroner was sent for. When the barrel was taken up the body of a woman about twenty years old was found in it with a piece of Brussels carpet wound about it and tied with a rope. Two sheets, which evidently had been saturated with chlorid of lime, were underneath the carpet. The body was bent double, the knees touching the chin, and the arms folded across the breast. No marks of external violence were found but the physician summoned was satisfied that there were evidences of abortion. The women was the victim of malpractice doubtless, and her body was placed where it was found in the night, and it is believed by some persons who knew the locality thoroughly well.

A School of Beauty.

In England it is proposed to open a school where young ladies shall be taught beauty on natural principles. A solemn pledge is exacted from the pupils not to use any of the artifices with which mantua-makers, milliners, hair-dressers and perfumers manufacture amateur angels. The hair is to be arranged naturally, somewhat in the style of the huntress Diana, and the dress is to conform to the shape, without the abomination of corsets and the voluminous expanse of skirts. The only thing in the way of lacing is a narrow cincture, like that of the ancient Greeks, and nothing resembling the *cincture degrace*, lately invented by a noted French modiste and at present exhibited on a beautiful wax figure at the exposition. The entire uselessness of many articles of female attire is only equalled by their entire ugliness. From the head, deformed with artificial hair and hats with birds and feathers, flowers and butterflies, down to the feet and ankles, dragged about with skirts that sweep up the mud or dust, the feminine fashion of dress is one mass of absurdities. The extreme of fashion's fantasies in dress as ridiculous as Dr. Mary Walker's man-woman style. Heaven forbid that angels should appear in trousers, but in the name of comfort and common sense let them remodel the dress to to suit the ideas of this practical age, and since it is woman's mission to be lovely, I send her to the school of beauty, where utility and grace, goodness and beauty, are instilled as high branches of education.

Scientists in a Tight Place.

Anxiety is felt regarding the safety of the Hayden Surveying party, which has been encamped in the Yellowstone National Park during the Summer. A telegram from the Park reports that the Indians have stolen all the horses and mules of Wilson's division of the survey, and the fact that there are so many armed hostiles in the vicinity causes fear for the safety of the party. Troops have been sent from Fort Ellis to render assistance and Generals Meade and Brisbin are to be reinforced at the same time. The Bannocks are in force in that vicinity.

One Effect of the Fever.

New York business men are complaining of the decline of trade caused by the yellow fever. People living in the infected regions are of course buying nothing, and merchants from all parts of the States where the epidemic has appeared refuse to buy any goods while there is a probability of their being stopped on the way. Fully $3,000,000 are thus virtually taken from the trading community, and the effect is felt in New York.

THE SECREST TRIAL.

Proceedings of Second Day--Secrest and Mrs. Stevenson Traced from Union to Newton --They Marry.--Traced to a Point near Hickory together --Lost sight of--Secrest Turns Up Alone--Traced back to Union Alone.

Staff Letter to News.

MARION, Sept. 18.

The second day of the trial of Hoke C. Secrest for the murder of his newly married wife and step-daughter, on the Burke and Catawba line in March, 1877, opened at 9 a. m. John F. Murrill, Esq., for the State, opened the case with a statement of what the prosecution expected to prove, and proceeded in a graphic manner to sketch the movements of the prisoner as he journeyed with the lady and child from Union county into Catawba, where they were lost sight of, until Secrest reappeared, alone, at the house of a farmer in Burke, and thence his journey back to Union. Mr. Murrill showed himself familiar with all the details of the case, and he conducted the examination on the part of the State, Col. Gaither cross-examining for the defence.

ANTECEDENTS OF THE MISSING LADY.

Miss Maggie Ezell, of the county of Union, was the grand-daughter of Col. Dunn, of Mecklenburg. She was educated at Statesville and at Davenport Female College. About 1872 she married a Mr. Stevenson, of Union county, who died in 1875. The child, Minnie, was the fruit of this marriage. Mrs. Stevenson was left a widow with some property, and she lived upon her farm, letting her lands to tenants. During the year 1876 young Secrest began paying her attentions, she being some four years his senior. In the spring of 1877 her condition began to be alarming to herself, and on that account she began to think of moving away, and to escape the scandal of her neighbors she left Union with Hoke C. Secrest on the last day of February, 1877.

THEIR JOURNEY TOGETHER.

Isaac Harrison, colored, a tenant of Mrs. Stevenson, saw them leaving the premises together in a buggy drawn by a dark bay mule, the little girl with them, on the last day of February, 1877, and took some directions from the lady respecting the rents which he was to pay to Secrest, she telling Harrison that she was going West. He saw Secrest again on the 11th of March, and asking where Mrs. Stevenson was, Secrest told him that he saw her buy an emigrant ticket in Charlotte for Texas.

R. B. Hunter, who lives five or six miles south of Charlotte, entertained the Secrest party on the night of the last day of February, Mrs. Stevenson saying she was going to Charlotte to attend to business relating to the estate of her husband. Did not notice the dress of the parties, only that the child wore copper-tipped shoes, and both mother and child were fair and wore light hair.

Mrs. R. M. Alexander lives five miles north of Lincolnton, and on the 3d of March she entertained the party all night. Her description of the lady and child were the same as that of Hunter. To her they represented themselves as brother and sister, but she regarded them as man and wife, and they slept in the same room with one bed. During the night she heard Secrest tell the woman roughly to shut her mouth.

Miss Louisa Sigmond lives in Catawba county. On the 4th of March, 1877, she spent the night at the widow Frye's, one mile and a half from Newton. There she saw Secrest, the lady and child, who stopped there for the night, and her description of the party and outfit same as the others.

John Jarrett lives in Newton. On Monday morning, March 5th, 1877, Secrest drove up to the fire where he was working on the street, asked for the lady and child to warm, and requested to be directed to the residence of the Methodist minister, and he was shown the house of Rev. J. B. Hartsell.

J. M. Brown, Register of Deeds for Catawba, testified to issuing a license for Hoke C. Secrest and Maggie Stinson, and exhibited the license, identifying the prisoner, as did all the other witnesses.

Miss Gertrude Bost, of Newton, was in the garden of the Bost House, Newton, on the morning of the 5th of March, 1877, and saw the man Secrest and a lady passing along the back street towards Mr. Hartsell's, and overheard him say to her, "If you say one word about it, damn you, I'll kill you."

Rev. J. B. Hartsell identified the prisoner, and testified to having married him to a lady calling herself Maggie Stinson on the morning in question.

E. M. Bullinger lives in Catawba, three miles west of Newton, on toward Hickory. Secrest, lady and child came to his house about noon. Being a bad, snowy day, they asked to stay till morning, and did so. To him Secrest represented that he was going to the mountains to see his uncle, on an invitation to spend two months. Left on the morning of the 6th, going in the direction of Hickory.

Mrs. Alonzo Kline lives one mile and a half from Hickory. They came to her house early in the day of the 6th of March, and stopped some hours to cook some bread and write letters. They went across the road to a pile of lumber to write, and being gone an hour, returned and threw some paper in the fire, the lady complaining that he tore her letters up as fast as she wrote them. They then left in the direction of Hickory.

SECREST TURNS UP ALONE.

D. B. Mull lives in Burke, three miles from Morganton. Wednesday, March 7th, Secrest drove a mule and buggy up to his house, asked for dinner and mule feed and had his buggy greased. Fully identified the prisoner.

J. P. Alsan, who lives in Catawba, 20 miles from Morganton and two miles from Burke line, entertained Secrest on the night of the 7th of March, 1877, who was travelling entirely alone, driving a dark bay mule to a buggy. On the 8th he departed toward Lincolnton, and thence Secrest is traced alone back to Union county, through Lincolnton to Union.

The prosecution now comes back to the grave in Burke, and as the case developes, grows in interest. All witnesses readily identify Secrest. Twenty examined to-day.

Letter from Halifax.

Special Correspondence of the News.

HALIFAX, Sept. 18.

The ubiquitous eyes of the NEWS pierce into every nook and corner of North Carolina. Just now its looks are turned upon this part of the moral vineyard.

The Fall Term of Halifax Superior Court is now in session, Judge Seymour presiding. Four capital cases are on docket,—one for murder, one for infanticide and two for burglary. Besides the resident members of the bar, Messrs. J. B. Batchelor, John Gatling, Walter Clark and F. H. Busbee of your Raleigh bar, are present attending court. We all miss the venerable figure of the Nestor of the bar, Hon. B. F. Moore, who, for over half a century, has been a regular attendant upon every term of Halifax Superior Court.

Capt. W. H. Kitchen, greenback candidate for Congress in this District, made a forcible speech on Monday. O'Hara replied in a speech on the bondholders' side. He appealed to the negroes to pay the bonds in gold, because the debt was incurred to free them. O'Hara is the regular Radical nominee, but Capt. Kitchen would, without doubt, be elected over him, such is the dissatisfaction with O'Hara, if sundry other candidates were not also seeking to avail themselves of the evident unpopularity of the West-Indian among the Republican masses.

The NEWS continues to grow in popularity. The present editor-in-chief of the NEWS has no superior in popularity and ability, (if he has his equal,) on the press in North Carolina. R.

Republican Convention in the Fifth District--Tourgee Endorsed--A "Revenue" Affair.

Correspondence of the News.

COMPANY SHOPS, Sept. 18.

According to previous notice, a small portion of the Republicans of the 5th District assembled in the court house, in Graham, in convention, for the purpose of nominating a candidate for Congress.

The convention was called to order by a Mr. Reynolds, who called to the chair Abram Klupp, of Guilford, and Boseman, colored, of Guilford, was made Secretary; and, at the suggestion of Reynolds, Boseman nominated Hoskins, from Guilford, for Assistant Secretary. Hoskins did not take his seat with the Secretary. He sat rather under the desk. The Chairman, from the manner in which he acted, did not hear, anything that was said, but when a motion was put to the house he would declare it adopted.

The delegates from the counties were not called as is usual in such conventions. There were present ten whites and fifteen negroes, all told, that took part in the meeting. The committee on resolutions was appointed, with Gen. Douglass as Chairman.

While the committee was out, Judge Tourgee was called for. He came forward and spoke for two hours and a half in opposition to greenbacks, and in favor of hard money to pay the bondholder with. This part of his speech did not set well with a portion of the white Republicans present.

The committee returned, but had to wait for sometime for the Judge to get through. Gen. Douglass read the resolutions. I am not able to give you an idea of what they contain, but they were ordered to be published in the North State.

Some that were present have a faint recollection of this man Douglass, in the days of Kirk. He is the man that assisted to oppress our people, aided by Tourgee, with his Star Chamber Court. Men were dragged before him, and he would sit as lordly as a king upon his throne, and require excessive bail. Our people have been waiting for a long time to get a chance to pay their respects to him at the ballot box, and well will they do it, when the 5th of November comes.

The convention made no nomination, but endorsed Tourgee as their candidate for Congress. It was run by the Revenue officers. Gen. Scales will sweep this county by a large majority. Some Republicans will vote for him, and he will receive the largest vote he ever got in the county.

ALAMANCE.

Prevention Possible.

The yellow fever, terrible and death-dealing as it is, is no demon's breath, but due to natural causes, and can be exorcised by the application of common sense and a few well known laws of health. A proper quarantine between Egypt and Arabia, in 1871, brought the westward march to a halt at the boundary line. Though there is yet known no one specific against cholera, as is vaccination against small pox, yet there is a daily increasing knowledge of the chemistry of the atmosphere, the power of disinfectants, the communication of poisons in the air to the blood through inhalation and its antidotes, so that a distinguished investigator says confidently that the cholera is doomed. The yellow fever, horrible as is its work, is not to be compared with the pests of the olden time. Its area is generally limited to towns on the seaboard and rivers, and its duration to the early frosts. Such has been the advance of the world in general health that Macaulay says that in the Seventeenth Century men died faster in the streets of London, when there was no special epidemic, than they now die on the coast of Guinea. The death-rate in the Fifteenth Century was one in twenty-three annually; now it is one in forty.

A Girl Accuses Her own Father of Murder.

The trial of Jesse Billings, the wealthy farmer of Ballston Spa, N. Y., who is charged with murdering his wife—having shot at her through an open window, near which she was sitting—is now progressing, and is causing a great sensation. On Friday Jennie Billings, a daughter of the deceased, 19 years old, was put on the witness stand as a witness against the father. She testified that he had abused her mother shamefully, who was continually afraid he would take her life; that he had whipped her mother and twice attempted to kill her, and that she (the daughter) accused him on the night of the murder of committing it. She was greatly confused by the cross examination, during which she wept copiously, and finally swooned away in the arms of the district attorney. She was conveyed into an adjoining apartment and seized with hysteria, during which blood flowed from her head, probably from over excitement. A physician was summoned, and the young lady was placed in a carriage, to which she was carried, seemingly insensible, by her relatives, and conveyed to the hotel.

"The ladies of Virginia, at the head of whom is Commodore Maury's daughter, have really formed an association to pay off the State debt. They propose to meet it with heroic taxation and still more heroic economy. They petition the Legislature to impose an additional ten cents on every hundred dollars' worth of taxable property, and pledge themselves to save the amount by diminished expenditure. It is safe to say the debt will now be paid.

THE WIZARD EDISON.

Light, Heat and Power to be Had for a Song.

New York Sun.

Mr. Edison says that he has discovered how to make electricity a cheap and practicable substitute for illuminating gas. Many scientific men have worked assiduously in that direction, but with little success. A powerful electric light was the result of these experiments, but the problem of its division into many small lights was a puzzler. Gramme, Siemens, Brush, Wallace, and others produced at most ten lights from a single machine, but a single one of them was found to be impracticable for lighting aught save large foundries, mills, and workshops. It has been reserved for Mr. Edison to solve the difficult problem desired. This, he says, he has done within a few days. His experience with the telephone, however, has taught him to be cautious, and he is exerting himself to protect the new scientific marvel, which, he says, will make the use of gas for illumination a thing of the past.

Mr. Edison, besides his power of origination, has the faculty for developing the ideas and mechanical constructions of others. He visited the Roosevelt piano forte factory in this city, and while examining the component parts of the instruments, made four suggestions so valuable that they have been patented. While in the mining districts of the West recently, he devised a means of determining the presence of gold below the surface, without resorting to costly and laborious boring and blasting. While on a visit to William Wallace, the electric machine manufacturer, in Ansonia, Conn., he was shown the lately perfected dynamo-electric machine for transmitting power by electricity. When power is applied to this machine it will not only reproduce it, but turn it into light. Although said by Edison to be more powerful than any other machine of the kind known, it will divide the light of the electricity produced into about ten separate lights. These being equal in power to four thousand candles, their impracticability for general purposes is apparent. Each of these lights is in a substantial metal frame, capable of holding in a horizontal position two carbon plates, each twelve inches long, two and a half wide, and one half thick. The upper and lower parts of the frame are insulated from each other, and one of the conducting wires is connected with each carbon. In the center and above the upper carbon, is an electro-magnet in the circuit, with an armature, by means of which the upper carbon is separated from the lower as far as desired. Wires from the source of electricity are placed in the binding posts. The carbons being together, the circuit is closed, the electro-magnet acts, raising and lowering the upper carbon enough to give a bright light. The light moves toward the opposite end from which it starts, then changes and goes back, always moving towards the place where the carbons are nearest together. If from any cause the light goes out, the circuit is broken, and the electro-magnet cases to act. Instantly the upper magnet falls, the circuit is closed, it relights, and separates the carbon again.

Edison, on returning home after his visit to Ansonia, studied and experimented on electric lights. On Friday last his efforts were crowned with success, and the project that has filled the minds of many scientific men for years, was developed.

"I have it now!" he said, on Saturday, while vigorously turning the handle of a Ritchie inductive coil in his laboratory at Menlo Park, "and, singularly enough, I have obtained it through an entirely different process than that from which scientific men have ever sought to secure it. They have all been working in the same groove, and when it is known how I have accomplished my object, everybody will wonder why they have never thought of it, it is so simple. When ten lights have been produced by a single electric machine, it has been thought to be a great triumph of scientific skill. With the process I have just discovered I can produce a thousand—aye, ten thousand—from one machine. Indeed, the number may be said to be infinite. When the brilliancy and cheapness of the lights are made known to the public, which will be in a few weeks, or just as soon as I can thoroughly protect the process—illumination by carburetted hydrogen gas will be discarded. With fifteen or twenty of these dynamo-electric machines recently perfected by Mr. Wallace I can light the entire lower part of New York city, using a 500 horse power engine. I purpose to establish one of these light centers in Nassau street, whence wires can be run up town as far as the Cooper Institute, down to the Battery, and across to both rivers. These wires must be insulated, and laid in the ground in the same manner as gas pipes. I also propose to utilize the gas burners and chandeliers now in use. In each house I can place a light meter, whence those wires will pass through the house, tapping small metallic contrivances that may be placed over each burner. Then housekeepers may turn off their gas and send the meters back to the companies whence they came. Whenever it is desired to light a jet, it will only be necessary to touch a little spring near it. No matches are required.

"Again, the same wire that brings the light to you," Mr. Edison continued, "will also bring power and heat. With the power you can run an elevator, a sewing machine, or any other mechanical contrivance that requires a motor, and by means of the heat you may cook your food. To utilize the heat, it will only be necessary to have the ovens or stoves properly arranged for its reception. This can be done at trifling cost. The dynamo-electric machine, called a telemachon, may be run by water or steam power at a distance. When used in a large city, the machine would, of necessity, be run by steam power. I have computed the relative cost of the light power and heat generated by the electricity transmitted to the telemachon to be but a fraction of the cost where obtained in the ordinary way. By a battery or steam power it is forty-six times cheaper, and by water power probably 95 per cent. cheaper."

It has been computed that by Edison's process the same amount of light that is given by 1,000 cubic feet of the carburetted hydrogen gas now used in this city, and for which from $2.50 to $3 is paid, may be obtained for from twelve to fifteen cents. Edison will soon give a public exhibition of his new invention.

Still They Come!

Fifty-four more new Home Sewing Machines just arrived at J. L. Stone's office, No. 7 Fayetteville St., Raleigh, N. C.

NOTES.

Those people who imagine that the Howard Associations of the South are named after Gen. Howard, should remember that if such was the case, help would be 500 miles in rear of the disease.

Lager beer promotes dropsy and elephantiasis. Wine stimulates gout and rheumatism. Lemonade acidulates the stomach and weakens the power of digestion. Ice-cream is multitudinously ruinous. Stick to milk and mild tea.

There are some scenes almost too pure and sacred to be viewed by the thoughtless world. One of them is a two-hundred-pound woman with a mole on her chin "talking baby" to an ounce-and-a-half canary bird in a brass cage.—Rockland Courier.

A petition is being circulated in Philadelphia among the various religious denominations and citizens, asking the President of the United States to set apart a day for national fasting and prayer, "in view of the terrible ravages of the yellow fever and the present distress caused by commercial depression and discontent throughout the country."

An English officer sent on a special mission by the war office included in his accounts an item of one shilling for "porter." The war office sent him a formidable letter by return of post to inform him that the government did not pay for his beer. He explained that the shilling was for the man who carried his luggage, and then received another note advising him that he should have charged for "porterage." When he next made up his accounts, the official charged one shilling six pence for "cabbage," considering that that was the proper way to set down a charge for cab hire, but he promptly received another wigging for making unauthorized investments in vegetables.

Abstracts of Taxables.

The State Auditor has received abstracts of listed taxables from:

Craven county, by Joseph Nelson, Register of Deeds:

General taxes,	$3,027.59
Special do	3,054.48
School do	4,088.66
County do	33 136.75

Cumberland county, by W. G. Autrey, Register of Deeds:

General taxes,	$3,398.08
Special do	3,467.48
School do	4,759.30
County do	24,685.07

Wake county, by W. W. White, Register of Deeds:

General taxes,	$10,810.95
Special do	10,870.88
School do	12,678.32
County do	41,784 72

Will it Succeed?

The plan of destroying the germs of yellow fever in cities by firing cannonand burning gunpowder in the streets and apartments is to be tried at Nashville, Tenn., where the disease has appeared. The Western Union Telegraph Company has granted to Mrs. Ingram, the author of the theory, the free use of its wires, that she might have free access to any point with which she wished to communicate, and two powder companies have agreed to furnish powder to try the feasibility of the plan.

A Good Sign.

It appears from the report of a journal of large circulation among architects and builders that the building of houses, and especially churches, has received all over the country a wonderful impulse within a short period. This fact adds another straw to the collection previously made of such indications of approaching good times. When churches of all kinds, from the meeting house to the cathedral, are in course of construction in every section, the signs of the times are encouraging.

At Prime Cost.

On account of removal and change of bnsiness I will sell my large stock of boots and shoes at prime cost for cash. I offer shoes cheaper than they have ever been sold at Raleigh. Call and examine.

1mo D. OETTINGER.

L. R. Wyatt, Esq.

wholesale and retail dealer in heavy groceries and cotton commission merchant, Wilmington Street. A large and well selected stock on hand for the fall trade, bought before the recent rise in sugars and coffees. Special attention paid to the sale of consignments of cotton. *

Gone, But Not Forever.

Mr. C. Weikel, the man whose motto is "Give 'em Fits," has gone North. But let his customers take heart, for he will soon return, bringing with him the latest designs and finest goods, such as he ever offers his patrons. The most elegant fall and winter styles of clothing, far lower than ever before, for cash. Weikel sensibly thinks he can do better for the people than any Northern slop-shops and their New York sprouts. No one who knows Weikel can doubt this. *

The Congressional Contest!

The next session of the 45th Congress in all probability will pass a law that all men having a fine taste and are fond of one of the luxuries of life, will go to the Capitol Cigar Store, opposite the Postoffice, where they will find cigars and tobacco of various brands at the lowest prices. Cigarettes, cigarette papers, and smokers' articles, together with polite attention to all these patrons. We have the sole agency for the "Sitting Bull" smoking tobacco, manufactured by E. H. Pogue, Hillsboro, N. C., of which we are making large sales, being superior to any other smoking tobacco. Sold in quantities at manufacturer's prices.

J. M. MENDEL & Co., Agts.

Lumsden's is the place to buy your stoves. He sells them on time, if you haven't the money. So none need be without a cook stove. His "Old North State" took the premium at last State Fair as being the best wood cook stove on exhibition. Tin ware, wood ware and a complete stock of house furnishing goods at Lumsden's. Powder, shot, caps and wads; also gun work in all branches, at Lumsden's. *

Stop While in Raleigh at the Waller House.

This house is situated in the most pleasant part of the city, on Hillsboro Street, within one block of the Capitol. Rates, $1 50 per day. Special terms to those remaining longer than one week. *

Cotton.

The receipts of cotton in Raleigh are rapidly increasing, and their growth is due to the energy and judgment exercised by commission merchants. Messrs. A. C. Sanders & Co. have been in the commission business, and are known as prompt and reliable commission merchants, who do only a commission business. Their charges are as low as any. *

It Might Have Been.

When taking a retrospection of our past lives, how often does conscience whisper to broken spirits and wounded hearts the sad, sad words, "It might have been?" Thus it may be with the sufferer who endures the agonies of hemorrhoids, or piles, and heeds not the counsel to try Barham's Infallible Pile Cure, which is warranted to speedily and permanently cure this distressing disease. Manufactured by the Barham Pile Cure Co., Durham, N. C.

1w

Both Choice.

The finest North Carolina hams ever brought to this market, are on sale at M. T. Norris & Co.'s. Also both the celebrated brands of flour, Patapsco and Orange Grove, guaranteed of highest quality. M. T. Norris & Co. Martin street and Market Place. *

Wm. Woollcott has just opened a complete stock of ladies, gents, and childrens boots and shoes and rubbers, and his prices are as low as the lowest It will pay you to examine his stock before purchasing. *

Piper Niger.

Under the more familiar name of Black Pepper, this standard seasoner finds a place on every table, and its absence or poor quality, too often cause the use of "hasty theological expressions" by the head of the family. To prepare against such possible contingencies, as well as to be sure of securing an article of the finest quality, free from all mixtures, call for pepper at Dodd's store, corner Wilmington and Martin streets. *

To-Day's Arrivals.

Messrs. Latta & Myatt will haul up to-day one hundred barrels North Carolina Mullets. They are nice and fresh. Send in your orders at once if you want them at lowest figures. *

NEW YORK, January 25th, '77.

The Messrs. Fairbanks have received this week from the American Institute a silver medal for "the best scales" exhibited at their last exhibition.

Julius Lewis & Co., Raleigh, N. C. are the North Carolina agents for these celebrated scales. They keep them in stock at manufacturer's lowest prices. *

A Family Convenience.

People naturally desire to find a store at which they can purchase their supplies, particularly of provisions, of the best quality and at lowest rates. When once they have found such a place they may feel satisfied. All such provident and prudent housekeepers are informed that at the family grocery of J. P. Pritchard, corner of Hillsboro Avenue and Salisbury street, they can find the choicest goods at bottom prices. *

An Undeniable Truth.

You deserve to suffer, and if you lead a miserable unsatisfactory life in this beautiful world, it is entirely your own fault and there is only one excuse for you,—your unreasonable prejudice and skepticism, which has killed thousands. Personal knowledge and common sense reasoning will soon show you that Green's August Flower will cure you of Liver Complaint, or Dyspepsia, with all its miserable effects, such as sick headache, palpitation of the heart, sour stomach, habitual costiveness, dizziness of the head, nervous prostration, low spirits, &c. Its sales now reach every town on the Western Continent and not a druggist but will tell you of its wonderful cures. You can buy a sample bottle for ten cents. Three doses will relieve you. aug14dawlyeow

Tombstones at Cost.

Parties wishing tombstones of any description will find it their interest to to call and examine Mr. John Cayton's large and varied selection. He will sell at cost for the next thirty days. Now is the time to secure bargains. Marble yard just below Harps carriage factory *

To Carpenters and Builders.

If you are needing anything in the way of edge tools or builders hardware, of any kind, we would advise you to call at J. C. Brewster's hardware house, where you can find a splendid stock of goods in this line, and at prices to suit the scarcity of money. All tools sold are fully warranted. He will contract for roofing at prices which will enable you to put in your bids (where there is any tin work to be done) lower than ever, giving you an opportunity to use tin in place of shingles.

He uses nothing except the best material. J. C. BREWSTER, * Holleman Building.

Choice Fruit.

New York Pippins, of the largest size and finest flavor, also Deep Red apples, very choice; both varieties by far the finest apples shown here this season, are for sale by P. R. Uzzle, at his first-class grocery, opposite the market. *

"El Designo,"

A long filler Havana cigar for 5 cents, at Simpson's Drug Store. *

Sale and Board Stable.

Having this day sold our Livery and Omnibus line to O'Kelley & Baker, we will give our personal attention to the sale of horses and mules, and will keep a first class boarding stable. Our stables will be open day and night, and especial attention given to transient and monthly boarders.

Thankful for the patronage so liberally bestowed heretofore, we trust by strict attention, to merit a continuance of the same in our sale and boarding stables.

GEO. W. WYNNE & Co.

Wagons.

Parties wanting wagons will find it to their interest to call and examine the Tennessee Wagon. Sold by Messrs. Cooke & Wainwright. They are still selling the only genuine Wilson plows. *

FOR CONGRESS, EIGHTH DISTRICT:
ROBERT B. VANCE,
of Buncombe.

ELECTION—TUESDAY, NOVEMBER 5TH

Senator Merrimon's Appointments.

Hon. A. S. MERRIMON will address his fellow-citizens as follows: At
Wentworth, Rockingham county, Saturday, Sept. 28.
Yanceyville, Caswell county, Monday, Sept. 30.
Lexington, Davidson county, Wednesday, Oct. 2d.
High Point, Guilford county, Thursday, Oct. 3d.
Winston, Forsythe county, Saturday, October 5th.
Dobson, Surry county, Tuesday, Oct. 8th.

The Democratic Party.--Its Creed and its Claims--Mr. Bledsoe's "No Difference."

The Democratic party *is the party of the people.* Its sympathies are with the masses and it is composed largely of the toiling millions. It is in favor of *freedom* as against *prerogative and power* It is opposed to monopolies, believing, that all freemen, when they form a social compact, are equal, and that no man or set of men are entitled to exclusive, separate public emoluments or privileges from the community. It is in favor of the largest liberty of the citizen compatible with public order. Its theory is, that government is not a splendid establishment for the honor and enrichment of office-holders with a crowd of retainers; but that it is a great public trust for the benefit alone of the governed, the people, who are the real governors.

It is opposed to consolidation and the centralization of power.

It is a party believing in the subordination of the military to the civil power.

It is in favor of rigid economy in the public expenditures, and insists that no useless appropriations should be made or unnecessary taxes levied.

It is and has been opposed to the policy of the contraction of the currency, so remorselessly maintained by the party in power since near the close of the war, by which the value of money in proportion to property has been constantly increased, and the value of property in proportion to money has been as constantly diminished; and thus impoverishment and baukruptcies such as have never been known in the history of the country have been produced.

It was opposed to the act of March, 1869, by which, at the rate of discount then prevailing, the value of the bonds of the Government in the hands of the bondholders, and the debt which they evidenced, were increased several hundred millions of dollars, bonds bought not with coin, but with paper, at the enormous rates of depreciation then existing and as a mere matter of pecuniary speculation.

It has been opposed to the principle of relieving such a large amount of wealth from its proper share of taxation, on the ground that the holders of Government notes should, in this respect, have occupied no more favored position than other property-owners, and with no fear founded in lack of confidence in the wisdom and integrity of the people that the taxing power could or would be abused to their detriment. And, while it is in favor of rigidly maintaining the contracts with the public creditors, as made, as a means of making them contribute their proper share of the expenses of the Government it favors the renewal of an income tax, so that the burdens of taxation shall fall upon the wealth and not alone on the industry of the country.

It was opposed to the act of 1873, by which, in the interest of the bondholders and the money power, silver was demonetized, and is in favor of restoring this "money of the people" to its time-honored functions.

It opposed the resumption act of 1875, and is in favor of its repeal.

It favors the abolition of the issue power of the national banks, getting, as they do, a large premium for being the medium through which a portion of the paper currency of the country is furnished, and is in favor of gradually retiring their notes and supplying their place with United States Treasury notes, which shall not be discredited by the Government itself, but be received for all dues to the Government, thus making them equal with coin; and it proposes that such United States notes and those now in circulation shall constitute the paper currency of the country, the amount to be regulated by the business wants of the country, the power to determine it being lodged in Congress, where, according to our constitutional system, it must be vested—keeping in view the wants of business, with also a desire and design, as far as practicable, "to give the people assurance of stability in the volume of the currency, and consequent stability of value."

It deeply sympathizes with the distresses of the people, and believes that in the midst of successively abundant crops and with the people willing and "begging leave for toil," they are to be largely, if not chiefly, attributed to the ruinous financial policy of the Government. It will do all in its power to relieve their distresses, to lift up their hopes, to increase the opportunities for well paid industrial employment and to restore prosperity to the country.

We understand that Mr. Bledsoe, in his speeches to the people as a candidate for Congress,—as we know that he did in his speeches in the Senatorial campaign in this county,—asserts and contends that there is no difference between the two parties of the country; which can only be meant as a thin apology for and explanation of his own sudden tergiversation. We challenge Mr. Bledsoe, or any other man, to show that the Radical party has not *antagonized all the principles set forth above as constituting the basis and creed of Democracy.*

That *it* has favored monopolies is demonstrated by its uniform career of subsidizing mammoth corporations.

That *it* has subordinated the civil to the military power is demonstrated by its legislation and history with reference to the Southern States, and its anxiety for the maintenance of a large standing army.

That *it* is responsible for the contraction of the currency is shown by the records and debates of Congress.

In one word, that *it* is solely chargeable with present financial evils, whose existence is not denied, is the logical sequence of the fact that the political power and control of the government have been almost exclusively under its sway since the close of the war; and it is only since the Democracy obtained possession of the House of Representatives that efforts have been made for their amelioration,—efforts that have, in every instance, been vehemently opposed by the Radical leaders, in the interests of monopolists, bond-holders and money-lords.

The amount of *assurance*, therefore, that it requires to assert that there is no real difference between the Democratic and Republican parties of the present day, is equal to the hardihood of asseverating that white is black, or that truth is a lie, or that the history of the past fifteen years of the government is an invention or a myth!

That Log Rolling Scene.

Mr. Turner invites the white and black Republicans to come up and help him "log-roll" the "rogues" out of the Democratic party. In his speech at Pittsboro, as reported by a correspondent of the Observer, Mr. Davis, our gallant nominee, drew a picture of the log-rolling scene, which is worth preservation as affording an interesting study. Here it is:

"His invited Radical friends come in full force. First and strongest among them is Judge Tourgee, who is now running against my gallant friend, Gen. Scales. Mr. Tourgee takes one end of the hand spike and Mr. Turner the other. It will be a pretty sight—Tourgee, whom Mr. Turner in times past called "the rifle-eyed thief from the Ohio penitentiary," and who, in return, complimented Mr. Turner as the great slanderer of the State—these are in the front, with Windy Billy Henderson, who, according to Mr. Turner, stole Darr's mule and Kittrell's law books, at the tail of the log. And then McLindsay, who, according to Jno. Pool, could take Graham and Vance and other Democrats out into the deep ocean and no more would be heard of them!—Mr. Turner and McLindsay rowing in the same boat! And Jno. Pool will be in the new ground also. O'Hara, the colored candidate in the 2d District, Collins, the negro Solicitor, and Col. I. J. Young and Mr. Badger, these and many other invited neighbors from the Republican fold will be there, all aiding Mr. Turner to purify the Democratic new-ground. But, said Mr. Davis, where will Mr. Turner *carry* the thieves? There are but two parties. Will he, and Tourgee, and Henderson, and Pool, and Young, and Badger, and O'Hara, and Collins, and all the other purified Republicans whom he has invited to aid them, carry them back into the Radical party? We suspect this will please somebody, and I can imagine my late opponent, Col. Young, twinkling his eye as the work goes bravely on!"

A Foul Insinuation.

Gunter, of Chatham, was a "substitute" at the late meeting of the Radical Executive Committee, which endorsed Josiah Turner. He was not a "proxy," we wish it to be distinctly understood. There were only two proxies in that conclave, it is due to the truth of history to state. "Ike" Young was the proxy of the man who "pented himself," and R. C. Badger was the proxy of Lucien Napoleon Bonaparte Battle—

"Phœbus! what a name,
To fill the trump of future fame—"

who, for reasons best known to the officers of the law, it is said, could not make it convenient to attend. Now Gunter aforesaid, who endorsed Josiah, is the same individual that Josiah aforesaid, "once on a time," as the story goes, accused of a little irregularity in the chicken business. Hence arises the *query*, whether Josiah's lament that men "who steal speckled chickens" should be entertained at the State's expense, when men "who steal spotted bonds" are debarred such hospitality, had anything to do with the "endorsement," so far as Gunter was concerned! *We* give it up.

An Applied Fable.

There was once a hog, who was in the habit of finding entrance to a potato-patch by means of a hollow log, one end of which lay on the *inside*, and the other on the *outside*, of a fence which enclosed the same. The porcine depredations compelled the removal of the log, one day, so that *both* ends of the log were placed *outside* of the fence. The astonishment and perplexity of the animal, when, passing through the log as usual, he did *not* find himself *in* the potato-patch, is described as ludicrous in the extreme, and for hours at a time and on recurring days he would bewilderingly make "the same old trip," only to find himself still outside of the coveted enclosure.

Josiah Turner makes the "same old speech" to-day and every day that he made ten years ago about "Union" and "Secession," and kindred obsolete topics. He runs through the same old log, and can't realize, to save his soul, that the field of popular thought and interest is closed to his eccentric and misdirected gyrations!

Dramatic Parallels.

That must have been a remarkable spectacle, as described in the affidavit of Lewis Jenkins, when he, Wilson Cary and Josiah Turner met in a blacksmith-shop, at night, in Yanceyville, in 1876, to conspire together as to the best method of consolidating the negro vote so as to defeat Jno. W. Graham, the Democratic nominee for the Senate, and elect Turner. It deserves to be recorded in those "archives of gravity" which made the same Wilson Cary so famous in the Convention of 1868. Its only parallel *is* recorded in dramatic "archives," when the sombre trio met in the dark cave, in "Macbeth," and Hecate, entering, said—

"Oh, well d one! I commend your pains:
And every one *shall share i' the gains.*"

Lost, strayed, or stolen: The Southern claims scare, the bloody shirt, the awful peril, and much other Republican baggage, which disappeared on or about the date of the Maine election.

COTTON FACTORS

BEAUTY:
OR THE
Secret of a Fair Face
AN ITEM OF INTREST TO EVERY LADY WHO DESIRES TO BE MORE BEAUTIFUL THAN SHE NOW IS.
Unfortunately not one woman in a hundred, subjected to the whims of an American climate possesses that basis and starting point of real beauty—a pure and clear complexion.
What nature has thus denied, art must be called upon to furnish.
It can be done; it is done daily. Prof. W. E. Hagan placed beauty within the reach of every unblessed daughter of Eve when he discovered that surprising article known in fashionable circles as the true secret of beauty, and called
MAGNOLIA
BALM
The MAGNOLIA BALM is a sure device for creating a pure and blooming complexion.
It conceals all natural blemishes in the most surprising and effective manner.
It removes all roughness eruptions, redness blotches, freckles, and tan with magical power.
It drives away all evidences of fatigue and excitement.
It makes the plainest face beautiful.
It gives the complexion a dazzling purity and makes the neck, face, and arms appear graceful, rotund, and plump.
It makes a matron of 35 or 40 look not more than 20 years old, and changes the rustic maiden into a cultivated city belle.
The Magnolia Balm removes all blemishes and conceals every drawback to beauty; and while it is as harmless as water, it is so lifelike in its effects that the closest observer cannot detect its use.
Ladies who want to make themselves attractive can make an absolute certainty of it by using HAGAN'S MAGNOLIA BALM, and we know of no other way. It is the cheapest preparation in the world, all things considered, and may be had at any drug stors

HOME REMEDY.
THE MOST WONDERFUL DISCOVERY OF THE AGE!
A CERTAIN AND SPEEDY
CURE FOR SCROFULA.
FACTS ARE STUBBORN THINGS!
My receipt for the cure of Scrofula has been tried by me with the most unprecedented success for the last twelve years, and I have no hesitation in recommending it as a sovereign cure for that disease and as a general Tonic and Blood Purifier. it is everywhere giving perfect satisfaction. While my experience with it is too limited for me to specially recommend it for other diseases, I believe it will ultimately prove to be of benefit in all cases arising from impurity of the blood, and probably for other diseases.
FAYETTEVILLE, N. C., Aug. 12, 1878.
MRS. JOE PERSON,
Dear Madam, I have been using your Remedy for Scrofula over five months as an experiment for cancer. The cancer is of long standing, the Doctors have been treating it, more or less, for twelve years, it has taken off my upper lip and a good part of my nose. When I began to use your Remedy it was growing rapidly worse, but the medicine appeared to check it very soon, and it has not made much progress since, except about two months ago, the medicine gave out, and I was without several days. It then seemed to start anew, and grew worse very fast, until I had taken the medicine about a week, since then it has not changed much. I think if I could have had the medicine soon enough, it would have cured me.
For more than a year before using your medicine, I was troubled very much with a disease of the heart, an irregularity in its action. It would miss every third beat for hours, then at other times it would increase in its action, and run up to 200 beats per minute. Since using your medicine I am almost entirely relieved of this. rarely feel it, and then not enough to speak of it. I would recommend any one suffering with heart disease to try your medicine. As a Tonic and Alterative, I do n t think it has any superior. I have been using all the most powerful Alteratives known to the medical profession for the last 12 years and I know of none superior to this. I think your medicine is destined to be a great blessing to the afflicted. Let every one that needs a Tonic or an Alterative give it a trial, and I do not think they will be disappointed.
Very truly and Respectfully,
JOHN BUIE, Box 141,
Fayetteville, N. C.
For my personal reliability, I refer, by permission to Rt. Rev. Thos. Atkinson, D. D., North Carolina; Geo. A. Foote, M. D., Warren, Co.; Hons. J. J. Davis and C. M. Cooke, Franklin Co.
The above medicine is for sale by Pescud, Lee & Co., Wm. Simpson, and F. H. Heartt, Druggists Raleigh, N. C. or it may be ordered direct from me. For further information, enclose stamp for Circulars to

MACHINERY.

HEGE'S IMPROVED CIRCULAR
SAW MILL
Manufactured by the Salem Agricultural Works, Salem, N. C.
CIRCULAR SAW MILL. LEVER FEED CUTTER.

Hege's Improved Circular Saw Mill, is no new and ununtried saw mill, but is one that is well and favorably known in many sections, and wherever it is introduced it is fast superceding all others. It is simple in construction, yet reliable in operation, and is sold for less than any other first class saw mill. Send for descriptive circular
Lever Feed Cutter,
Is something entirely new and novel in the feed cutter line. With this cutter the feed is cut off diagonally, instead of square across, as is the case with all other cutters, at the same time our cutter has a draw cut, acting exactly on the same principle that a knife is used in cutting off a stick, consequently with our Diagonal Feed Cutter we can cut more feed with less labor in a given time than any other cutter costing twice as much.
Price reduced to $8.00. Send for circular. Liberal discount to agents. No goods consigned. Manufactured by the Salem Agricultural Works, Salem, N. C.
THE SALEM PLOW
Will not Choke. Runs light, Easily Regulated.
Try one. Liberal discount to dealers. Manufactured by Salem Agricultural Works, Salem, N. C.

Hege's Improved Gin Powers.
For 4, 6 or 8 Horses. Simple, Cheap, Durable, made almost entirely of iron. Not liable to get out of order. Just what the farmer needs. Send for descriptive Circulars.
THE TRIPPLE-GEAR HORSE POWER.
TRIPLE-GEAR POWER. GIN POWER.

For driving Threshers and Cleaners, Farm Grist Mills, Wood Saws and other machinery used by farmers, having no steam or water power. This power has an iron frame all in one piece, consequently cannot become loose or rickety. Powers for 4, 6 or 8 Horses. Send for prices and full particulars to

I have tried the Xanthine, and found it to be all it claims in restoring hair to its natural color and removing dandruff.
W. W. BENNETT.

(From Rev. W. W. Bennett, D. D., Senior Editor Richmond Christian Advocate.)

(From Rev. Mr. Cameron, Minister of the Presbyterian Church South.)

MOSSY CREEK, Tenn., August 22, 1876.
Xanthine Co., Richmond, Va.:

I have used the Xanthine now for three years, and have induced others to try it, and have never known it to fail in accomplishing all you claim for it. It is an excellent tonic a pleasant dressing, removing and preventing dandruff and all unpleasant itching, promoting and preserving the natural growth and color of the hair, and rendering it glossy and pliable. I confidently, cheerfully and knowingly recommend it.

Index to New Advertisements.

EATON & BURNETT—Business College.
HARDIN & GRIMES—Groceries.
PETTY & JONES—Local notice.
J. P. GULLEY—Local notice.

Weather Probabilities.

WASHINGTON, D. C., Sept. 19.

For the South Atlantic and Gulf States, falling barometer; increasing southerly winds; stationary temperature, increasing cloudiness.

LOCAL BRIEFS.

——Farewell to dullness.

——Emerson's Minstrels are in Wilmington.

——Revenue collections here yesterday were $2,363.45.

——There are 403 pupils at the Graded School.

——The revival at the Person Street Methodist church continues.

——Scuppernong grapes are not plentiful, and not of superior quality.

——Attention is directed to the advertisement of the popular grocers, Leach Bros., which appears elsewhere.

——A public well is being dug at the intersection of Martin and Harrington streets. At a depth of 20 feet water was struck.

——Drummers licenses were issued yesterday to Ellison & Harvey, Richmond, Va., and W. K. Tabb, Baltimore.

——The Executive Committee of the State Agricultural Society held an important meeting at the Yarbrough last evening.

——It is suggested that a squad of convicts be put to work to level and cut out the walks of the capitol square, as they do in Richmond.

——The clanking chains of the Odd Fellows' Hall last evening reminded one of the wort features of the Spanish Inquisition. Several victims were put on the rack.

——An attractive advertisement of Messrs. McCallum & Cooper will appear in to-morrow's News. Persons in need of steam engines and cotton gins should look out for it.

——No cases were tried in the Mayor's Court yesterday. The city is unusually quiet, too much so for the reporters, who would gleefuly greet a sensation of any kind.

——In another column will be found the advertisement of one of the best agricultural implement works in the State, that of the Salem Agricultural Works, C. A. Hege & Co.

——The Templeton troupe are endeavoring to secure one of the theatres during Fair week. It is to be hoped they may succeed, as the company is one of the best now traveling.

——To-night the good-hearted proprietor of the spirometer and galvanic battery, Prof. Wm. Sherry, will give an exhibition for the benefit of the yellow fever sufferers. He gave one Wednesday night for the Oxford Orphan Asylum, which made $8.05 for that charity.

——Gov. Vance finds himself compelled to decline the invitation extended him by a number of citizens to deliver his popular lecture, "The Scattered Nation," in Goldsboro, in behalf of the yellow fever sufferers. The serious illness of Mrs Vance prevents his doing so.

——The following is given as a remedy for diphtheria: To a pint of strong apple vinegar add a tablespoonful of salt; boil a pod of red pepper in a pint of strong sage tea, and mix honey enough with the tea to form a syrup, then mix the tea and vinegar together. First gargle with it, and then take two spoonfuls hourly until relieved.

Col. S. P. Horton.

This gentleman, who has lately removed to this city from Johnston, to conduct the cotton business, is a member of the Board of Trade.

Y. M. C. A.

The monthly meeting of the Young Men's Christian Association will be held at their hall over Branson's bookstore, this evening at 8 o'clock. A full attendance is desired.

The Swannanoa Fish Hatchery.

Mr. S. G. Worth, the Superintendent of the Trout Hatchery at Swannanoa Gap, near the Western N. C. R. R., left yesterday for that point, to resume operations.

Fine Beef.

The market is now being supplied with better beef than for some time. A good deal of it comes from Alamance and other western counties. Thos. Donaldson will have some really good in to-morrow. It is such a pleasure to have good fish, oysters and meats that such arrivals are well worth attention.

Military Gossip.

The Durham Light Infantry has completed its organization and has been armed with breech loading rifles. The company numbers eighty or eighty-five fine looking young men, who are determined to make it one of the best companies in the State. They are preparing to put in an appearance at the State Fair.

For the Sufferers.

The sum of $67.70 was received at the Executive office yesterday, contributed by citizens of Reidsville. Of this sum $6.84 was sent by the colored people.

Through the Citizens' National Bank $22, was sent the Howards yesternay.

G. S. H. Cooper, at St. Augustine School, colored, sent $5 per express to the Howards.

Another large box of clothing was sent from the express office yesterday evening.

The Solicitor After Delinquents

The Solicitor of the Criminal Court, who is also Attorney for the Board of County Commissioners, has sent a circular letter to all the County Magistrates, calling their attention to the fact that during the past year numbers of persons have failed to list their taxes. The law makes it the duty of magistrates, in such cases, to indict the offenders for a misdemeanor. This step the Solicitor takes on account of the failure to list, and he intends to make it lively for offenders.

Wake County Taxes.

In another place is given a synopsis of the abstract of the taxes to be paid by Wake county this year. The amount raised last year, together with the several amounts stated in the abstract sent in yesterday, are also given, in order that a comparison may be made. It will be seen that there is a large decrease. This is owing to the people paying so little attention to the matter of listing their property within the time prescribed by law. This failure keeps Wake from making as good a showing as she is entitled to, as those failing to list at the proper time, give in to the Sheriff, as "unlisted," and consequently the abstract does not show the amount thus listed.

The decrease in the school fund is to be regretted. The Graded Schools in Raleigh township lose $618.51 in the way of special tax, as compared with last year. But to the figures:

			Decrease.
1877.	State tax Gen'l fund,	$23,436 33	
1878.	" " " "	21,681 83	$1,754 50
1877.	Common School fund	$21,103 29	
1878.	" " "	20,650 58	452 71
1877.	Graded Schools,	$ 4,838 52	
1878.	" "	4,220 01	618 51
1877.	County taxes G'n'l fd.	37,087 81	
1878.	" " "	33 812 46	3,275 35
	Total decrease in taxes,		6,101 07
			Decrease
1877.	Real and personal property listed,	$7,727,031	
1878.	Real and personal property listed,	7,247,258	$479,773
1877.	Income listed.	$ 51,281	
1878.	" "	18,164	$ 33,117
1877.	Bank Stock listed,	$ 224,055	
1878.	" " "	63,790	$160,265
	Total decrease in property not listed.		$673,155

It is made the duty of bank officers to furnish Registers of Deeds with a list of stockholders. It will be seen that the decrease in the amount of bank stock given in this year is $160,265. This is a queer falling off, and needs explanation.

Post Office Notes.

The Post Office Department is sending out circulars to postmasters, informing them of a reduction which has been made in the price of stamped envelopes, and furnishing the new schedules of prices.

The ordinary white note-sized envelope which is now sold for $32.40 per thousand, is put at $31.60 (including, of course, $30 for stamps) in the new schedule. The ordinary letter-size three cent envelopes, blue, cream and white, now sold at $32, $32.40 and $32.60, will be sold at $31.60, $31.80 and $32, fawn color taking the place of the cream. A like reduction runs through the other classes of envelopes. There is no change in the price of newspaper wrappers. To enable the postmasters to dispose of the stock charged to them at the present contract price, the change will not take effect until January 1, 1879. All stamped envelopes supplied after that date to postmasters must be sold according to the new schedule.

Special-request envelopes are printed by the department without additional cost when ordered in quantities of 500 and upward through postmasters. The special-request envelopes are those on which is printed a request that if not delivered, the letter be returned to the sender, whose name is affixed to the request. This class of envelopes is encouraged by the department, as it affords great relief to the dead-letter office, the letters going directly back to the sender, instead of having to go through the dead-letter office, in case of non-delivery.

To many it is not known that the face-value of the postage stamp on a stamped envelope will be refunded where the envelope has been spoiled in mailing, if presented at the office where the mis-direction is claimed to have been made.

The New Post Office.

The postoffice will be removed into the new quarters on Tuesday or Wednesday next. Meanwhile, beginning with to-day a clerk will be in the new building from 8 o'clock a. m. until 11 a. m. to-day, Saturday and Monday, for the purpose of renting the boxes for the quarter commencing 1st October. The prices will be as follows: For the drawers $1.50 per quarter; for the large boxes $1.25 per quarter; for the smaller boxes $1 per quarter. The sum of 35 cents must be deposited for the key, to pay for a new one if the key should be lost. There are two keys to each box. Each drawer and box has its own particular key, and no other key will unlock the drawer or box.

The charges for drawers and lock-boxes at other places are as follows: Wilmington, drawers $1 50 per quarter; boxes, only one size, $1 per quarter. Columbia, S. C., drawers $2 50 per quarter; boxes $1.50 to $2 per quarter; Charleston, S. C., drawers $2 to $3 per quarter; boxes from $1 to $3 per quarter. Augusta, Ga., drawers $4 per quarter; boxes $1 to $2 per quarter. Atlanta, Ga., drawers $3 per quarter; boxes $2 per quarter. Norfolk, $1.50 per quarter all round for drawers and boxes.

These rates are established by the Department at Washington, on the recommendation of the Postmaster.

The new building is open during the day to visitors. The ladies are especially invited to call and look at the interior of the building. They will be conducted through it by the polite and attentive Janitor, Mr. McDonald.

Lively Once Again.

The cotton market, and the streets now wear an appearance to which they have long been unfamiliar. As will be seen elsewhere, 150 bales of new cotton came in yesterday, and all day long the streets presented a busy aspect. The fall trade may now be said to have opened, although the stores have not as yet been fully stocked. But every few minutes drays disembark their varied stores in front of establishments of all kinds. Merchants look fresh and smiling, and all have an air of pleased expectancy. The start is a good one, the prospect bright, and the business anticipated will no doubt prove very satisfactory.

For the Penitentiary.

The following convicts, being the last detachment of those sentenced at the term of the Criminal Court just closed, were carried to the Penitentiary yesterday by Deputy Sheriff J. S. Bryant. All were colored:

John Henry Smith	2 years.
Eliza J. Smith	2 "
George Norwood	6 "
George Partin	5 "
Jordan Bailey	5 "
John Glenn	2 "
Thomas Watson	1 "
Anthony Holmes	1 "

Thus old Wake does her share in advancing the work of internal improvements, by sending a lot of good railroad hands ready for use.

Postoffice Schedule.

Until further notice, the following will be the hours of the opening and closing of mails:

Chatham,	closes at 9:00 p. m.
"	opens at 7:30 a. m.
R. & G.,	closes at 10:00 a. m.
"	opens at 6:00 p. m.

A Hymn of Prayer.

The following poem was written by Mrs. Mary Bayard Clark, and was sung at a party given at New Berne, on Wednesday evening, for the benefit of the yellow fever sufferers. The air is "God Save the King."

"DE PROFUNDIS."

Lord, from our Southern Land,
In mercy lift thy hand,
Which presses sore;
For through its borders wide,
Fell pestilence doth stride,
While famine by its side
Knocks at each door.

Lord, keep our hope alive,
Give us the strength to strive
Against this foe;
Before Thy throne we kneel,
Oh Great Physician heal
The wounds 'neath which we reel,
And end this woe!

Aside our strife we lay,
Both North and South, and pray
"Thy will be done."
And with one voice implore,
That when this plague is o'er,
We, as in days of yore,
Be truly one.

The Next Fair.

Donations to the North Carolina Agricultural Society for the Premium List of the 18th Annual Fair, Oct. 14, 15, 16, 17, 18, 19th, next, at Raleigh. N. C. (Acknowledged by C. B. Denson, Secretary, in behalf of the Executive Committee.)

One Jersey bull calf, (by Rex, 1586, Herdbook,) from an imported cow, value not stated; given by Colin Cameron, Esq., manager Elizabeth Stock Farms, Brickerville, Pa. Mr. Cameron has charge of this extensive and well known stock farm, and the calf that he donates can not fail to be very valuable, as he wishes to exhibit the excellency of his stock to the farmers of North Carolina. We hail with pleasure these constant accessions to the better classes of stock in our State.

Five annual subscribers to the Goldsboro Mail, $10, given by W. H. Avera, Esq, Editor. This is our old friend the Rocky Mount Mail, to be moved to Goldsboro, in a few days, and will doubtless continue to be a favorite in the East, as it has long been. We score one more handsome thing on the part of the press.

One Gold Pen, in Morocco case, $3, given by Alfred Williams & Co., booksellers, Fayetteville street, Raleigh. This premium, from one of the most esteemed firms of the State, they desire to be awarded to the boy or girl under 16 years of age, who exhibits the best penmanship, plain or ornamental, executed by himself. Shall we hear from other business firms in our midst?

Business Colleges.

Not only does Baltimore offer splendid educational opportunities to young men to fit themselves for the professions, but it has within its gates the colleges which prepare them for business and commercial pursuits. Eaton & Burnett's business college, northeast corner of Baltimore and Charles streets, is one of the best organized schools of this class in the land. The principals, A. H. Eaton and E. Burnett, are both experienced instructors. The faculty of the college consists of first-class business men and educators. Mr. A. H. Eaton, besides his thorough and practical knowledge of all kinds of business, &c., is a member of the Baltimore bar. Mr. E. Burnett has for many years been engaged as a teacher, having occupied most of the professional chairs in the Bryant & Stratton business college from its foundation. As an instructor in every branch germane to a thorough business education, he is without a rival, and in executive qualities he is without a peer.

State Fair Items.

Much interest is exhibited in the forthcoming Bench Show. Among the entries yesterday were three superb Irish Setters, "Joe," Ruby" and "Biddy," entered by H. H. Tate, Esq., of Greensboro. We have no doubt of the success of this feature this year. The premiums in each class are silver medals.

Mr. Tate also exhibits his Siberian Blood Hound "Nero," and he will be represented also in the Live Stock department.

Personals.

Col. T. M. Holt is in the city, at the Yarbrough.

Hon. Thos. Ruffin, of Hillsboro, is registed at the Yarbrough.

Captain W. B. Shepard, of Edenton, N. C, passed through the city yesterday.

The Asheville Pioneer says W. W. Jones, Esq., one of the rising young lawyers of Raleigh, is a guest at the Swannanoa Hotel.

General Matt. Ransom is, with his family, making a tour of Western North Carolina.

Rev. N. H. D. Wilson, D.D., a prominent Methodist divine, is at the Yarbrough.

Excursion to Fayetteville.

To-morrow an excursion train will leave at 8.55 a. m., for Fayetteville. The affair is in good hands and will be conducted in the best manner. The fare for the round trip is only $1.25, and for this sum a delightful ride and pleasant visit to the charming old city of Fayetteville are given. Coaches will be reserved for ladies, and these will be specially in charge of the conductor. Don't forget the hour.

W. C. & A. B. Stronach.

This firm of grocers have now in the most complete stock imaginable, filling their store from cellar to garret. As far as quality and prices go they are noted, and are, besides, gentlemen of rare energy.

Attractive.

The attractive new advertisement of Messrs. Hardin & Grimes appears elsewhere. Of the quality of the goods kept by this firm it is useless to speak, as their quality and cheapness are both too well known to need mention.

The Worst of All.

Of all the stricken cities in Mississippi, Greenville is to-day the worst. For some weeks, by an energetic quarantine, her citizens fought the fever off, but at length it crept in and is now devastating with terrible fatality. Greenville is situated on the banks of the Mississippi, about two hundred miles below Memphis and one hundred and fifty above Vicksburg. For several weeks it has been entirely cut off from all help from the outside world. It has to-day neither railroad, river, nor even telegraphic communication. The quarantine established when the yellow fever first appeared depleted the store of provisions, and its isolation now leaves no doubt of the terrible situation of its three thousand inhabitants.

New Arrivals.

The first supply of new goods for Fall trade have arrived at Law's. New styles and patterns in Iron-stone, China and porcelain ware. Also, glass ware and house furnishing goods. We intend to carry a larger and more widely assorted stock this season than ever before. Law's China and Silver Warehouse, Raleigh, N. C.

Levy's Champion yoke shirt factory, Raleigh, N. C.

Fall Fashions.

J. P. Gulley is just in receipt of Frank Leslie's Cut Paper Patterns for the fall styles of ladies and children's clothing. These may be found in all variety at his store on Fayetteville street. *

Levy's champion shirts will give satisfaction.

D. S. Sanders.

Beaufort, N. C., dealer in salt and fresh fish of every description, by package or barrel. All orders accompanied with cash or good reference, will receive prompt attention, and be filled at the lowest market prices. sep 4 tf.

Levy's champion shirts are perfect fitting.

New Store--New Goods.

Having opened a grocery and general merchandise store in the Adams building, No. 2 Martin street, I would announce to my old customers and the public generally, that I shall keep in stock a large and varied selection of dry goods, groceries, boots, shoes, &c., &c. Buying at cash prices, as I do, I can at all times compete with the market and afford my customers all the advantages offered to the trade. I shall be glad to give strict personal attention to all business in my line. W. E. Dupree, Raleigh, N. C., Martin street, Adams building. *

Levy's champion shirts will please the wearer.

Notice, Country Merchants.

Stronach & Allcott have the largest store house in this city for commission and storage goods. Parties desirous of shipping to this point can not do b tter than to ship to this reliable firm. They get the highest prices for commission goods and give storage cheap. *

Levy's champion shirts are made of the best material.

For Rent.

The storeroom now occupied by W. A. Myatt, on Martin street. Apply to John R. Williams, at drug store of Williams & Haywood. sep17dtf

NEW assortment. Those elegant EMBROIDERIES arrived to-day, at Petty & Jones *

Levy's Champion Shirts cannot be excelled.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness early decay, loss of manhood, &c., I will send a receipt that will cure you, free of charge. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. Joseph T. INMAN, Station, D, Bible House, New York City. oct 26 1 wly

Prompt Reform of Bodily Evils.

The prompt reform of those bodily evils, enfeebled digestion, incomplete assimilation inactivity of the liver, kidneys and bladder, as well as of the nervous symptoms which these ailments are especially prone to beget, is always accomplished by the use of Hostetter's Stomach Bitters, a medicine accredited by physicians, pronounced pure by analysis, and eminently wholesome and agreeable. Surely such a restorative is preferable to unpalatable and indigestible mineral drugs and unsanctioned nostrums. The nation at large assuredly thinks so, judging by the unprecedented demand for the article from Maine to the Pacific, a demand now supplemented by immense orders for it received from tropical America, Mexico, the British and Spanish Colonial possessions, and elsewhere. Both at home and abroad it is recognized as a standard remedy and preventive, the decisiveness of its effects recommending it everywhere. sep. 17-4t

FOR UPWARDS OF THIRTY YEARS MRS. WINSLOW'S Soothing Syrup has been used for children. It corrects acidity of the stomach, relieves wind colic, regulates the bowels, cures dysentery and diarrhœa, whether arising from teething or other causes. An old and well-tried remedy. 25 cents a bottle. mar 1-d&wly

Happy tidings for nervous sufferers, and those who have been dosed, drugged, and quacked. Pulvermacher's Electric Belts effectually cure premature debility, weakness, and decay. Book and Journal, with information worth thousands, mailed free. Address PULVERMACHER'S GALVANIC Co. Cincinnati, O. no 18 eodeawly.

Extract of report from the celebrated physician, Erasmus Wilson, of London, England * * "several severe cases of incipient Consumption have come under my observation that have been cured by the timely use of Colden's Liebig's Extract of Beef and Tonic Invigorator." Williams & Haywood, Agents. sept 14-2w

THE STABLE OF MR. ROBERT BONNER, Proprietor New York Ledger is built and kept on the most improved and modern plan, both as regards ventilation, light, warmth etc Mr. Bonner's taste for horses is well known. The gentleman in charge of this valuable stable was Mr. Ross. By the use of Giles' Liniment Iodide Ammonia, he removed ringbones and bunches that had resisted all other treatment. Send for circular, giving full instructions, to Dr. Giles, 451 6th avenue, New York.
Sold by all Druggists. sep 19 6t.

The Wine for Consumptives.

Consumptive persons are said to be greatly benefitted by the use of Speer's Port Grape Wine. It seems to give nourishment when everything else fails, and physicians are prescribing it as a rich nutrious wine. Williams & Haywood, Agents. sep 18-6

LIQUORS.

A. W. FRAPS,

LONG AND FAVORABLY KNOWN IN Raleigh, as a Dealer in Foreign and Domestic Wines and Liquors, and always first in his specialty, "LAGER BEER," wishes to call attention of his old friends and the public generally to the fact that he has now opened on Fayetteville Street at his old stand, a Wholesale and Retail Liquor Business, and that he is prepared to furnish to the public, and to the trade anything in his line, of the best quality, and at as low prices as can be afforded in the Southern States. He has on hand Liquors of every description, from the best brands of Imported Brandies and Wines of France and Germany; Gin of Holland; the Wines and Cordials of Southern Europe, to every description of Domestic Liquors and native Wines, including California Brandies and Wines, and the well known brands of Still and Sparkling Catawba from Ohio. All dealers will do well to see him and get their supplies.

Lager Beer, fresh and cool from his Ice House, at all times.

Country orders will be filled promptly.

JONES' BAKING POWDER

FOR SALE BY ALL GROCERS.

We ask all cooks, housewives, and the general public to give our goods an impartial trial. This Powder is carefully prepared upon scientific principles—the result of long and careful experiments and tests in chemistry. In its proportions and compounding, it is the perfection of science, and is recommended by the leading Chemists in the United States, whose certificates we have. It is perfectly pure and wholesome, and saves time, labor and money of every consumer. It stands unrivaled; we challenge the world to produce better pure and more wholesome goods.

REASONS WHY IT SHOULD BE USED:

A BARREL OF FLOUR MAKES ABOUT 40 POUNDS MORE BREAD
IT NEVER FAILS AND ALWAYS PLEASES THE CONSUMER.
IT IS THE PERFECTION OF SCIENCE IN COOKERY.
IT IS A COMFORT FOR EVERY HOME.
YOUR BREAD WILL NEVER BE SOUR.
YOUR FOOD WILL BE THE BEST.
YOUR BREAD WILL BE WHITER AND RICHER.
YOUR HEALTH WILL BE PRESERVED BY ITS PURITY.

WARRANTED TO KEEP IN ANY CLIMATE

We do most earnestly caution consumers of Baking Powder against using adulterated and cheap goods, as no good and pure Baking Powder can be sold for less than ours.

An analysis of the cheap clap-trap spurious adulterated goods called Baking Powder, would startle the community of consumers beyond precedence, as most of it is not fit for use, and would not be allowed to be sold were the laws enforced; yet goods of this kind are manufactured and sold by dealers because offered cheap by unscrupulous manufacturers. We caution those who value health, and appreciate good, wholesome living to buy only Pure Baking Powder. Jones' Unrivaled is such. It is an established article throughout the West and South, and is recommended by the highest authority for Purity and Strength.

All first-class storekeepers have it because it is pure and can be relied upon, and is a credit to their stock.

Merchants are authorized to warrant our goods where directions are followed.

Our statements are correct and are backed by chemists of note and experience, and we hold ourselves ready to prove our assertions.

We are offering goods of undoubted purity, which are in their compounding, as we claim "UNRIVALED."
